Health Service Advisory - Influenza is an acute viral infection which is characterized by respiratory and constitutional symptoms. Transmission is by close contact or by droplets from the respiratory tract of an infected person. The virus is airborne and multiplies in the upper respiratory tract, invading the nasal, tracheal, and bronchial mucosal cells. In the majority of patients influenza begins as an acute cold after a short incubation period of 24 to 48 hours. The patient has fever, headache, dry cough, and generalized aching. Other symptoms may include sinusitis, bronchitis, pleurisy, or bronchopneumonia. There may be gastrointestinal symptoms of nausea, vomiting, abdominal pain, and diarrhea. If you have any of these symptoms STAY IN BED. There is no specific treatment for influenza however, antipyretics and analgesics, such as aspirin, will reduce fever and relieve headache and myalgia. A liberal fluid intake is advised because of fever.

Volunteers - are needed by the Communications Committee to put up the calendar for May on the bulletin board on 4th floor Humanities. Anyone willing to help should contact Barbara Stout in the ASB office.

Times will then be scheduled so as to avoid as many conflicts as possible.

Please schedule an appointment with your academic advisor during the dates mentioned above. As in the past, students will be accepted into "limited" classes on a first come, first serve basis; hence getting your completed schedule in early will give you priority in getting into these classes. Catherine's overbearing, overprotective father, Dr. Sloper, lives in the shadow of his dead wife who was very beautiful and to whom Catherine will never compare. - 2) Concern for students outside of class // Is this teacher regularly available? (i.e., office hours, free for appointments, etc.) Does he/she show a genuine interest in you?
- 3) Extracurricular involvement in the development of the college // Is this teacher willing to serve on committees? Does he/she offer helpful suggestions in the planning of college activities?
- 4) Participation in college activities // Does this teacher attend and support the majority of college functions?

I am particularly concerned about proper nutrition because many of the youngsters in this school seem to eat so much "junk" food and especially candy.
